

Standard Timeline

This timeline can vary from wedding to wedding since all weddings move at a different pace. Some guests love to stay outside, while others are quick to get a good seat. We cannot introduce you into reception until we have dinner orders from your guests.

Introductions- Typically 20 minutes after guests start to move into the room

First Dance

First Course or Duet Course Service.

Champagne Toast(s) - This is where the timeline really flexes. Speeches can be short and sweet or have a toast that takes over 6 minutes.

40 minutes after duet course is served - Entrée is served. Encourage a dance set between the first course and entrée.

30 minutes later - Cake Cutting - after we clear the Entrée

Cake Service - 1 hour Before Reception End

Within this timeline, your DJ will have their own things they need to insert such as parent dances, anniversary dance, and specific music dance sets. The DJ and Maître'd meet up before the guest come into the room. The Maître'd will always give the DJ a heads up (one/two songs length) before a hot course is going to be served or you are going to cut the cake. Our Maître 'ds always make sure you have enough time to party. We want you to have as much uninterrupted dancing time as possible.

If your DJ has specific questions before the wedding, have them call us. We are always here to help.

****adding a second course will add 25 minutes to this timeline**

Please share any timelines provided by your DJ/Photographer
